News Culled for The Progress
by our own correspondents.

BROADVIEW.

—Butter is very plentiful at 20c;
eggs scarce at 25c.

—The first dance of the season
was held last evening in the school
house.

—Broadview school is now at-
taining a high standard of excel-
lence, under the charge of Mrs.
McNiece.

—There is not yet sufficient snow
for sleighing and rather too much
for wheels so that their is not much
movement in grain at present.

—Both the Presbyterians and
Methodists are preparing for Chris-
tmas Eve. Practice meetings for
the Sunday school children are held
almost nightly.

—The railway men intend to get
up a dance in aid of the library fund
and the townspeople are arranging
for the use of the schoolhouse on
Wednesday evening during Decem-
ber, January, February and March
for literary and musical entertain-
ments and dancing parties alterna-
tively.

—Mr. Holmes' men have finished
the spring water reservoir at the
east end of the town. Messrs White,
Tait and Stocks examined the spring
and pronounced it to be the best
water between Winnipeg and the
Rockies. The water gauge are now
at work on the large filter at Weed
Lake. This will probably occupy
them till near Christmas.

—Grain comes in slowly. The
two local buyers are not kept very
busy. Forty-eight to 50c. is paid
for wheat, 20c. for oats, 20c. for
barley. Wheat is all of very fine
quality, only one load of poor grain,
having been rejected as unfit for
shipment. Barley marketed is bright
and plump. Not many oats have
appeared, farmers holding for an ad-
vance in the spring.

—The school trustees held a
court of revision on the 8th inst.
some railway employees objected to
assessment on income. After ex-
planations most of the men ex-
pressed themselves satisfied. Some small
reductions were made on property.
The secretary read a letter from W.
R. South, managing director of the
Canada Northwest Land company
stating that the townspeople
who not admitting liability, were
willing for the sake of a peaceable
settlement to pay taxes on one half
the assessed value. On motion of
the secretary this was agreed to
providing taxes for previous year
were also paid in same proportion.

MOOSE JAW.

—Private theatricals are on the
 tapis, being got up by Assistant
Superintendent Tait and Train Dis-
patcher Compton.

—The small building in the C.
P. R. yard here, belonging to the
company and used by the car re-
pairer and his assistants, was burned
in the early part of this week.
The cause of the fire is not known.
The loss is not much.

—F. Plante and T. B. Baker have
this week been shipping the last
of the buffalo bones for the season.
The trade in them is, however, de-
creasing, the shipments for the past
season being less than half of what
they had been the previous season.

—See our daily mail stage.
—Charles Kelley Cote is specially
engaged for this country where the
hard water produces no more luxury
travels. It never fails to cure.

REGINA.

—The toboggan slide is nearly
completed.

—"B" troop are preparing for a
grand ball to be given at New Year's.

—A meeting has been held and
action taken to establish a lending
library in town.

—All the Sunday schools are
making preparations for Christmas
entertainments.

—A public meeting will shortly
be held to discuss municipal matters.
Among the candidates who will
offer for the councilorships are
Messrs. Hunt, Morrison, Williams,
Sheppard and Read.

—The assembly at the barracks
was eminently successful. Nearly
all the officers and their wives were
in attendance, and a considerable
number from the town, including
the mayor, were present.

—Chas. Leamy, of the Indian
Department, died of typhoid fever,
at the mounted police hospital.
Leamy was the son of an Ottawa
lumberman, and was one of the
best prairie men in the Northwest.

—Mayor Mowat, who has returned
from Ottawa, Montreal and other
eastern points, speaks in the highest
terms of the reception met with by
the delegation at Montreal. He
says that the deputation has accom-
plished a great deal of good.

—Mr. Justice Richardson and
Mr. Justice Wetmore did not
hesitate to express something
like condemnation at the in fer-
ence of certain members of the bar
who at this session of the court
were not present when judgment
in the case of Walter & Baker
against the C. P. R. was delivered,
and when the Queen against Farley
was called.

—Decision has been given in the
Court of appeal in the case of Angus
et al v. Calgary School Board, a case
involving the right of taxing the C.
P. R. interest in townsites. The
appeal was dismissed with costs.
The Court was unanimous that the
C. P. R. interest is taxable. Judges
Wetmore and Maguire held that
school trustees have no power to
assess property within the munici-
pality.

MOOSOMIN.

—The water supply of Moosomin,
which has always been a serious
question, is without doubt solved.
Water was first struck at Ogilvie's
elevator at 150 feet. One hundred
feet of this was dug and the balance
holed with a two inch auger. The
water immediately rose to within
forty feet of the surface. At the
flour mill water was struck last
night at the same depth, and in
eight minutes rose to the same
height as in the elevator well.

—Grave doubts are entertained
for the safety of Mr. G. Rushbrook,
who is supposed to be on the prairie
and has not been seen since the
22nd of November. He was in search
of a band of ponies, which had
strayed from his ranch at Moose
Mountain, and had a team, wagon
and complete camping outfit with
him, and was accompanied by a
mounted guide. On Monday, the
21st ult., when in the neighborhood
of Alameda, he and the guide parted
—he to go two miles east to a
trail leading to Alameda, and the
guide to take another route to the
same point. The guide reached
Alameda, and after waiting for nearly
a day for Mr. Rushbrook, went
back to discover, if possible, what
had become of him. He heard from
a settler that he had been seen
going to visit Alameda. Informa-
tion from another settler further
north stated that Rushbrook, on
Tuesday, Jan. 22nd, was seen going

north on the trail towards Moose
Mountain. This was the last seen
or heard of him, and searching parties
are out, but up to the present
writing no news has been received.
When last seen he was only some
22 miles from Cannington, and on
a fair trail.

WAPELLE.

—Wheat is coming in very fast
in consequence of the fair grading
and good prices being paid.

—The annual meeting of the ag-
ricultural society was held on the
5th, at which there was a large as-
semblage. The president, T. J.
Smith, opened the meeting by calling
upon F. T. Low, secretary-treasurer
to read the minutes of last meeting,
which were confirmed. The meeting
then elected A. Roberts as auditor,
who with E. P. Benoit, the presi-
dent's auditor, overhauled the ac-
counts, and finding them correct
with a surplus of \$200.50 in the
treasury, gave a report accordingly.
Mr. Smith was re-elected president.
Hubert Blake was unanimously
elected as senior vice-president,
William Elliott, junior vice, Francis
T. Low secretary-treasurer, elected.
The directors were then elected,
when a long discussion took place
re-building an agricultural hall in
Wapelle. The meeting then adjourned
until the second Tuesday in
January 1888, when plans of the
hall will be submitted. The first
Tuesday in October was fixed upon
to hold the annual fall show.

MISCELLANEOUS.

—If not overloaded Equinox dogs will easily draw a sledge sixty miles a day.

The women of San Francisco will found a cemetery for sailors. Two thousand sailors are known to have been buried within the city limits since its foundation, and the grave of but 120 are known. —San Francisco Call.

Dr. Sellert, in the Boston Medical and Surgical Journal, recommends food tea, made very hot with red pepper, for delirious tremors. A London surgeon is said to have treated 200 cases successfully with this remedy alone.

—Here is the last remedy for scalds, burns, taken from one of the French papers. "Take no food during at least four hours previous to embarking. An hour before sleeping on board drink one or two cups of very strong coffee (without chocolate)."

—A Texas paper advises that everything except soap grease will be taken in payment of subscriptions to that paper.

—The University of Virginia the other day was reported for ten years and was to be held in a room in a new building of different dimensions. The university of a new order has been held. The university of students, it is said, is to be held in a new building, and the university of a new order has been held. The university of students, it is said, is to be held in a new building, and the university of a new order has been held.

Poe.

Oh, if he listened he suffered! Let him rest, then, in this world, had little but pain! The life of patient suffering still is here— But there he listens powerfully to restrain The ravings of the heart and brain.

But that are driven madly over the deep, The passions fatal and their struggle vain; But that in raptures pierce their vision keep, With machine like, and eyes that burn but can not weep.

If a music died not—nor can ever die— How soon found the world by every wandering wind. The coral, floating in the midnight sky, Still reveals the glory of the sun. Death cannot quench the lustre of the stars. Nor hush the song that the beauty sings: Her voice for every secret that she brings. To all that dwell beneath the brooding of her wings.

The silent wave of Time's eternal sea Roll over the rocks of the dead; But, written on these waves, for and free, How bright, how deep his starry songs are— Black legends the deep beneath, but over-head.

All heaven is glorious with its orb of light, While, like a spirit, issued from ocean's bed, One great voice, sounding through the night.

Look up the crystal slopes of God's own mountain height. —Verses from William Winter's Poe Memorial Poem.

In reviewing a posthumous work by Dr. Rolleston of the British Museum, whose early death was thought to be partly due to the large demands made upon his mental and bodily powers, the *Lancet* relates the following: "The Professor was returning home after a hard day's work in the museum, when a stranger accosted him with, 'Ah, Prof. Rolleston, I am glad to have met you, for I find I have half an hour to spare, and I should be so much obliged if you would show me over the museum.' 'You have found a spare half hour,' interrupted Rolleston; 'for God's sake give it to me; I have been looking for it all day.'"

A California Judge has decided that a man cannot recover damages from parents who ejected him from their house for frightening their baby into spasms while attempting to kiss it. "Good for him! The baby has been put upon too long. Why should he be kissed by old and young, and by infants of every age and variety, whether he will or no, and nobody rise and protest? Let it be known that the man or woman who kisses a baby hereafter, without first obtaining the consent of the baby and the baby's guardians, must do it at his own risk, and not altogether at the risk of the baby, as hitherto." —Boston Transcript.

One day when the ground was white with snow, Miss Dorian a great while ago, the Parisian "sportswoman," invited the eccentric and venerable Victor Hugo to drive out and see the scatters in the Bois de Boulogne. As he got up beside her on the box of her carriage she remarked, "You have forgotten your overcoat, mon cher maître." "My overcoat! I haven't any, and I never had one; and I dress just the same way in Winter as I do in Summer. My overcoat is my youth." Mr. Hugo is a lively *gargon* of 83 years. Ex-Vice President Hamelin, of Maine, is another lively boy of 79 years of age, who never wears an overcoat.

"Will you look me up, the origin of the 'pink' papers?" "Certainly, my dear; but why do you wish me to do so?" "I have taken a notion to learn roller skating, and I have a curiosity to know what the word 'pink' is derived from." "If you are going to learn roller skating I would advise you to become acquainted with the word 'equilibrium,' for you'll want to know more about it than about risk when you put on the rollers."

Children have funny ways of expressing themselves. Johnny, who was born and raised in the city, went up to Portsmouth, a nice little town on the Ohio, not long ago, and when he came home he had much to tell. "By the way, Johnnie," asked his father, "is Portsmouth as big as Cincinnati?" "Well, no, papa, I guess not. That, there ain't nearly so many houses, but there's ever so much more water." —Merchant Traveler.

William Green, now in Auburn Prison for larceny, in conversation with a reporter the other day, gave the following as an excuse for leaving his Oswego County wife: "Children were the cause," said he. "When I married her I believed her to be alone in the world."

A Natural Mistake.

A correspondent sends to the Boston Journal the following account of a mistake made by a little girl in his vicinity. She always joins the family in reading the Scriptures during the family devotions, taking her verse in turn. Successfully reads the shorter words, but needs some help about the longer, but is always eager to pronounce all the words herself and sometimes guesses. Recently it came to her turn to read the verse, "No man can serve two masters, for either he will hate the one and love the other, or else he will hold to the one and despise the other. Ye cannot serve God and Mammon." She made a slight variation at the end, and finished the verse, "Ye cannot serve God and women."

Senator Evans' New York law practice has paid him \$2500 a year.

A novelty in Long Island farming the present year will be the extensive cultivation of peanuts as an experiment.

There is a salt lake in Idaho containing 100,000,000 bushels of soda. The water is so pure and soft that it is used for drinking water. It is said to be the best of any kind of soda water.

THE STARR KIDNEY PAD.
To relieve the suffering.
The successful drug known as the Starr Kidney Pad Company, of Toronto, are about to introduce their most efficacious and reliable proprietary medicines into this province. They manufacture Dr. Starr's Kidney Pad for lame, weak and sore backs, which have been long and extensively throughout Manitoba, Ontario, the lower provinces and England. The cures effected by these pads are said to be marvellous, in relieving suffering these—said to be marvellous—diseases known as diabetes and Bright's disease of the kidneys. Alarming eastern M. P. says these pads are certainly the best remedy ever tried in his locality for kidney or urinary disease. These kidney pads ought to have a large sale in this province, as there are many miners, fishermen and railroad navies afflicted with kidney disorders, to say nothing of its prevalence among other classes of our people. The same company also manufacture numerous other medicines for the cure of other of the many ills which flesh is heir to. A general agent will be appointed for the province. We wish the company success.—Victoria Daily Times, Sept. 9, 1886.

—Mr. J. Franks succeeds Mr. J. M. Peregrine as store keeper, post master, etc.

—Several persons have recently removed from our neighborhood, whose places will be hard to fill. Among those removing we may mention Mr. A. Donogh and family, who have gone to Oak Lake; Mr. McK. Mulholland who along with his family has removed to Troy, Ont., and Mr. J. M. Peregrine and his wife have gone back to Hamilton, Ont. All the above gentlemen took leading positions and will be much missed.

—An influential meeting was held at Phoenix Forks, in connection with the Temperance movement in the Northwest. Rev. C. S. Willis was appointed secretary pro tem and Mr. L. Brown was called to the chair who after a read and short speech introduced the Rev. A. Andrews of Qu'Appelle, who most ably set before the audience the doings of the Temperance convention recently held in Regina. The meeting was a healthy

endorsed its action and plans the result being the formation of a branch of said Alliance to be called the Primitive Methodist Colony branch of the Northwest Prohibitory Alliance. The Rev. C. S. Willis was elected president and J. Cooke, Esq., J. P., secretary with a good working committee.

—The first annual meeting of the Phoenix Forks agricultural society, was held on Monday, Dec. 5th. The President, J. Cooke, J. P., in the chair. There was a good attendance of directors and members. Mr. J. M. Peregrine, assistant-secretary read the report, which was highly satisfactory. It was found there was a good balance in hand, with which to start the ensuing year. It was stated that Irving Walker, Esq., of Toronto, president of the Primitive Methodist Colonization company had subscribed \$10 towards next year's show. Votes of thanks were heartily accorded to the president, secretary-treasurer and the several committees. A gratuity of \$10 was voted to Mr. McK. Mulholland, for his excellent services as secretary-treasurer. It is felt that great credit is due to W. D. Perley, M. P., for the efforts he put forth in securing such liberal aid from the government for our society as well as others, and it must be gratifying to him that success attended every show in the Northwest this fall. The following officers were chosen for 1888: John Cooke, Esq., president; Mr. J. S. Cornell, 1st vice-president; Mr. R. Amy, 2nd vice-president; Mr. J. Frank, secretary-treasurer; Mr. George Medd, and Mr. Walter Willis, auditors; Rev. C. J. Willis, Messrs. T. S. Ward, J. P. Webster, J. Teece, T. Pallister, H. Stilburn, J. Jones, I. Jones, A.
